African Violets - GYPSY DESCRIPTIVE CHART MAY 5 1950

GYPSY ACTRESS - heart shaped leaf with serrated edge lavender flower with upper petals deeper than lower similar to Amethyst Amazon only more distinctive foliage, larger flower

GYPSY BOY - medium blue with deeper center wonderful bloomer.

GYPSY ANN - medium green foliage flower deeper than Blue Eye shaded into darker center. Good bloomer matured plant a beauty.

GYPSY LACE - medium blue foliage outstanding because of its lacy edge, cream spot at the base of the leaf running up into the foliage, similar to Old Lace but the leaves are more pointed.

GYPSY BEADS - beautiful reddish purple center shading out to a light lavender. Flower has markings not common in other plants.

GYPSY JANE - flower has a gloss you can not describe, flower as large as a Dupont but blooms more profusely light lavender, with deeper shading. Does not have coarse foliage.

GYPSY PRINCESS - flower light lavender deeper veined and eye striking foliage heart shaped with light spot at base of leaf.

GYPSY QUEEN - flower considerably larger and a little deeper than West Coast Amethyst always in bloom for us.

GYPSY RING - this flower does not have as much purple as Red Head more on the rose side, we think you will like it.

GYPSY JEWEL - this flower is a light blush lavender bicolor upper petals deeper than lower, foliage slightly quilted.

GYPSY PRINCE - this flower is a deep purple bicolor.

GYPSY BELL - this flower is more a bi than Gypsy Ring deeper veined, does not have the same coloring as red bicolor.

GYPSY JOY - flower good size more of a light purple with a deeper eye.

GYPSY GAY - flower is a bluish lavender bi deeper in color than Gypsy Jewel.

GYPSY CROWN - this flower is a purple bi little lighter than Gypsy Prince, foliage darker green.

GYPSY ROSA - foliage medium light green, quite a lot of purple out of this flower making it more on the red or rose side. Free bloomer. Outstanding.

GYPSY KING - very pretty lavender markings deeper in center shading out, flower similar to the Fringettes only larger.

GYPSY LULA - medium blue free bloomer, heart shaped leaf with light spot at base.

GYPSY LAD - petals large giving it a round full appearance reddish lavender, large leaves.

GYPSY LASS - light green spot at base of leaves irregular at edge flower similar to West Coast Amethyst slightly cupped.

GYPSY BABY FACE - center of flower pinkish lavender the tip of each petal being deeper.

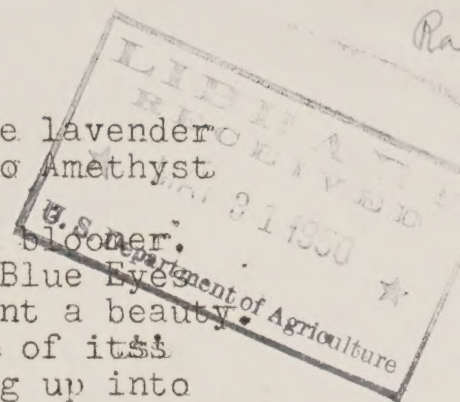

GYPSY RUBA - foliage very dark green with reddish back, if given enough light some leaves will spoon. Needs some sun to bring out the foliage, reddish purple flower.

GYPSY CURVACIOUS - novelty, dark blue flower dark green leaves some leaves curve up and some down.

GYPSY BLUE BI - upper petals purple blue lower petals lighter. medium dark green foliage.

GYPSY CLOWN - flower lavender with darker vein running through light green foliage.

GYPSY MAIDEN - grows a nice shaped plant very dignified foliage, medium blue good bloomer.

GYPSY FREAK - medium green heavy foliage, flower white over  
laid with glistening pink. yellow stamen very small, often  
no center at all making it distinctive.

GYPSY APPLE BLOSSOM- color of the apple blossom. Ready about  
August 1st.

" BUY BAXTERS' GYPSY STRAIN

AND YOU WILL GET THEM TRUE TO NAME "

Since our African Violets are sold through the mail and travel  
all over the country that is why we are using the trade name  
GYPSY which is registered and can not be used by any one else  
We are doing this for your protection so that you will know.  
that an African Violet named Gypsy must be true to name.

These varieties can be propagated and sold as long as they  
are done so with the original name but this prohibits anybody  
else naming any of their new varieties Gypsy. Our Gypsy  
Rainbow Collection called that on the account of the variation  
in colors. We have selected these because they have characteristics  
different than any African Violet that we know of that is on  
the market and there is as much difference in these as some of the  
named varieties that are on the market now. These violets have been  
classified according to the way they grew in our greenhouse.  
They will vary some in different sections of the country and  
according to the light in your home and seasons of the year,  
which is entirely beyond our control. These are all our own  
originations and not any one else's renamed varieties.

We have given you a brief description of these, we could go on  
and describe these more fully but it makes too large a circular  
to send so we are putting these on display in our Greenhouse  
including all of the new plants that we will have to offer in the  
future and some of the varieties that are going to be introduced by  
other Growers. We invite you to come and see this exhibit and  
compare the difference in the varieties. Open Monday through  
Friday - 9 A.M. to 3 P.M. We will not be open Saturday or Sunday.  
No rooted cuttings sold at the Greenhouse.

We are offering you 6 varieties of our Gypsies' your selection  
for \$ 6.50 in rooted cuttings . We do not sell less than 6 that  
means 6 taken from this list, but if you want more they will be  
\$ 1 each above the \$ 6.50. Orders shipped parcel post Special  
Delivery.

Please do not order from a circular over 90 days old and we do not  
send out a circular only upon request.
